PERSONAL PROJECTS

•**My Portfolio**
pakinbaskerp.github.io

•**Password Generator (java)** *Sep'21*
- Implemented a Random Password Generator using Java . Developed a Console Application for password generator. Based on the user input, the program generates a random password that meets the specified criteria

•**URL Shortener Project (Java)** *July'22*
- A URL shortener is a service that converts long web addresses into shorter, more manageable URLs. It makes sharing and remembering URLs easier, while tracking and redirecting users to the original long URL.

•**Hotel Management WebApp (Java, Spring boot ,My SQl)** *Dec'22*
- Created a hotel booking platform using Java and Spring Boot, enabling users to search and reserve accommodations, view room details and amenities, and receive real-time confirmation.

•**Customer Churn analysis (python,react js)** *Jan'23*
- we designed and developed a web application for customer churn prediction. The application uses machine learning algorithms. The application takes in customer data, such as demographics, purchase history, and customer interactions, and feeds it into a trained machine learning model.

TECHNICAL SKILLS AND INTERESTS

• **Technical skills**: Core Java(Advanced),JavaScript(Intermediate) , Python(Beginner), ReactJs(intermediate), Git(intermediate)

• **Developer Tools**:PyCharm, VS Code, Spring Tool Suit-4, Eclipse,Gitbash ,Excel

• **Databases**: MySQL(Intermediate), Oracle(Intermediate)

• **Soft Skills**: Leadership, Practical Learner, Self-Learner,Team performer

• **Platform**:Linux, Windows

• **Areas of Interest**: software developer , Backend Developer, Product developer

• **Languages**: Tamil, English

CERTIFICATION

•**AWS academy -cloud foundation** *April'22*

•**Ready, Set, Agile! Program-Accenture** *Oct'22*

•**Developer Program Certificate -Cognizant** *Feb'22*
